

Elektroprivreda

Electric Power Industry Journal

Scientific and professional journal of the joint-stock company "Elektroprivreda Srbije"
in co-publishing with the Nikola Tesla Institute of Electrical Engineering JSC Belgrade

Volume 4, Issue 2

Content

Imprint

Foreword by the Editorial Board and the Guest Editor 15-16

Articles

Dušan Joksimović, Đorđe Stojić, Nemanja Milojčić, Zoran Ćirić,
Slavko Veinović, Luka Ivanović, Ilija Klasnić, Miroslav Pavičević, Dušan Trišić

Design and Dynamic Performance of Redundant Excitation Systems for
Motor-Generators at the „Bajina Basta“ Pumped-Storage Hydro Power Plant

/Abstract only /

17-17

Jelica Janićijević, Danilo Vlahović, Aleksandar Latinović, Željko Đurišić

Conceptual Design for Substituting Coal as Fuel in Units A1 and A2 of the
„Nikola Tesla“ Thermal Power Plant Through the Application of Hydrogen
Technologies Combined with Renewable Energy Sources

18-34

Nikola Kovačević, Sava Dobričić

Powering Alkaline Electrolyzers With Twelve-Pulse Rectifiers Without an
Interphase Transformer

/Abstract only /

35-35

Miroslav Popović, Aleksandar Milić, Nikola Mirković

Loss Modeling of GaN Transistors Using Datasheet Data

36-47

Uroš Njegovan, Zoran Stojanović, Aleksandar Marjanović

Mitigation of Switching Transients Using Point-on-Wave Controlled Circuit
Breaker Closing

48-61

Marija Đorđević, Srđan Mladenović, Ivana Stamenić, Branko Šumonja

Implementation of European Processes in the Operational Activities
of EMS JSC

62-73

Appendices - Attachments

Editorial Policy and Topics of the Journal

74-74

Classification (Ranking) of Manuscripts

75-75

Detailed Instructions for Authors on How to Prepare an Article

76-80

In memoriam – Prof Dr. Vladimir Katić

81-81

Attachment: Excerpt from the Bibliography of Professor Vladimir Katić

82-85
